

This is My ISAGENIX Weight Loss Story

60 Pounds in 100 Days . . . and 10 inches off my Waist

BEFORE ISAGENIX
220 Pounds

AFTER ISAGENIX
160 Pounds

Me Again
In My Son's Jeans !

I am 63 years old and have lived all of my adult life carrying extra weight. I believed this was my natural state, since I have always been active. I walk a lot. In fact, my sons and I have walked on Safari in Africa and covered northern British Columbia on horseback.

My wife came home one day with Isagenix products and raving about their qualities. I was very skeptical, but I told her I'd try the Isagenix system. I started at 220 pounds and in 100 days of steady use of the products, I was down to 160 pounds !

That in itself is miraculous, but the real change has been in my stamina. I can't overstate the amount of energy I now have. I feel like I'm 16 years old. My waist size is now 34, having been up to 44 prior to meeting Isagenix. In 1996, one of my sons stayed at my condo with me. When he got married and moved on, he forgot a pair of size 34 jeans. These jeans had been in my closet for years. I now wear the jeans. I can assure you that the products work ~ **I lost 60 pounds in 100 days and 10 inches off my waist.**

On top of all this stimulating physical success, I also have enjoyed the business side of the Isagenix activity. It is a very positive and reinforcing team of motivated participants, genuinely interested in helping others improve their health and create their wealth. My personal wealth story is that within two months of joining Isagenix, my income from Isagenix more than covers the ongoing cost of my Isagenix products.

It is very heart-warming to be able to help people improve their health at the same time as introduce them to a residual income method that assures them of ongoing revenue.
