

## This is My ISAGENIX Weight Loss Story

First look at my son's wedding pictures made me weep ~ not for joy but for grief ~ I was so fat.

As a teen body-builder ~ constantly starving to make the 'cut' ~ combined with frequent weight loss assaults over the years ~ I had completely trashed my metabolism. Any weight loss success was inventively followed by its regain ~ plus more. I felt so helpless and hopeless looking at these photographs. Nearing 51, I knew any chance of losing this excess weight was nil. I gave up and hid the pictures.

That is until I met this feisty lady at a trade show in California. Sporting her "I'm a Loser" T-shirt, she was eye-catching and conveniently, in the booth next to me. As the show progressed, I became very impressed with Angela's knowledge, ENERGY and Passion for Isagenix ~ and decided to give it a try.

Truthfully I didn't expect to lose much weight, but as a nurse / esthetician, I could see the ingredients were superior to any I was currently taking. I concluded that I would most likely see improvement in my general health which was deteriorating. With only 6 days available to do a Cleanse, I got busy ~ never dreaming I'd feel so good or have so much energy. Previous cleanses had always left me weak and tired. So, I was shocked to see on the 6<sup>th</sup> day that I had lost 7 lbs. and 7 inches. Really shocked! I couldn't wait to do another cleanse and promptly ordered one. **Then I told everyone This System Really Works!** 6 weeks later, I had lost 30 pounds. I continued on the Isagenix Maintenance Program with occasional cleanse days through the Holidays ~ without ballooning back up ~ a BIG change for me.

**Now 6 months later ~ with my health restored ~ I've lost over 40 lbs. and 38 inches.**

As a bonus ~ I have more Energy than 30 years ago. Thanks to Angela and Isagenix, I have the tools to never see (or hide) a fat picture of me again.
