

## This is My ISAGENIX Weight Loss Story

My name is Jill Persinos and I have a wondrous story to tell. When I was younger, I had always been healthy and active. Just over a year ago, I was almost twice the weight and size that I am today.

I tried dieting and exercise and I would be successful at removing 20 to 30 pounds and then the weight would come right back on and often double. When I ate, I would feel ill and if I didn't eat I would feel ill. My body was not functioning normally. I had diagnostic tests to try to find the root of my health problems. I felt like I was 89 years old and

I missed spending time doing fun, physical activities with my two young children. I wanted my life back.

~ **Miracle** ~ I was introduced to the Isagenix Cleanse by Riley Bookout. I used to fast when I was younger ~ so I had expected some of the same energy lows on the Isagenix cleanse. To my amazement, the Cleanse Drink and the Snacks tasted good and I had more energy on the very first day. Within the first two days, I could feel my body becoming more flexible again and I was beginning to feel that I might have control over my health.

In the first 9-Day Cleanse, I lost a total of 21 lbs ~ which was amazing. The real impact of the Cleanse for me was that when I measured myself after the first 9 days, I discovered that I had also lost 25 inches. I was now armed with the tools and motivation that I needed to get my health and my life back on track successfully.

In 26 days ~ I lost 40 lbs. and 40 inches. Within 4 months ~ I lost 66 lbs. and 57 inches.

My grand total so far is 110 lbs and 90+ inches . . . within a year ! I have double the energy. I am continuing my education program, raising two young children and being physically active with them ~ and I volunteer at my church regularly.

I'm happy to say that my daughter lost 85 lbs and 76 inches using the Isagenix Cleanse ~ and my whole family has started Tae Kwon Do together. We change lives in Isagenix !

Weight-loss results may vary. In a recent study, participants averaged a weight loss of 7 pounds at the completion of their first Isagenix 9 Day Program. Always consult your physician before making any dietary changes or starting any nutrition, weight or exercise program.
