

## This is My Isagenix Weight Loss Story

My 8 Year Journey Results Of Youthful Aging; Isagenix Lifestyle, & Anti-Aging Super Foods!

**My Story** ~ began when my dear friend Jeannine Miller gifted me with Isagenix in December 2003. At the time, I didn't realize what a precious gift that was. She knew I was struggling with my health and weight and having a difficult time with energy to teach High School Ceramics and Jewelry. It took me 7 months to get my products out of the cupboard and finally start ISAGENIX in July 2004. All I can say was that my health was so bad, not sleeping, hardly able to get out of bed, discomfort from head to toe, that I could hardly think straight. I became so desperate to feel better ~ especially for my daughter's sake as she was getting married in August.

**My First Cleanses** ~ Jeannine coached me through my first 9-Day Cleanse and WOW . . . within 12 hours, my thoughts became much more clear and that was the moment I knew Isagenix was very special. I became excited and decided to follow the program to the tee. I literally transformed from a "Chunky Slug Bug" to an "Energized Skinny Bunny!" My results were amazing ~ the best part was I was sleeping better and just felt AWESOME. I couldn't believe I was looking so young and felt alive again!

I was euphoric and did another 9-Day Cleanse with my husband Joe. In the middle of our Cleanse ~ our daughter came over and was upset that her wedding dress was way too tight. We got her started and all three of us were cleansing together. We all released unhealthy fat and inches and my daughter looked fabulous in her wedding dress! Isagenix saved the Wedding day for all of us! We all looked more radiant and my family and close friends noticed the difference in all of us.

**My Business** ~ began when I returned to school after my summer break. Teachers saw the changes in me, started asking me what I was doing and how to get the Isagenix products. I was so busy, I just told them to go to my website, click on the "Buy Now" or "Sign-up & Save" buttons. I became a Consultant just like that, and at the time I didn't know about building a business. Isagenix notified me I had earned commissions and got a debit card in the mail. WOW ! Of course as people got their results, more people joined my teams. That's when Jeannine and I really started learning about the compensation plan. We got our "Business Smarts" and really got going and started teaching others to do the same.

**Duplication is the key to fast growth.**

**Time and Financial Freedom** ~ after teaching over 30 years ~ June 4, 2007 was my FREEDOM DAY. I retired from teaching and enjoy FANTASTIC Energy, Health and Wealth. My Isagenix Residual Income has given me Financial Freedom to enjoy life at a whole new level.
